Web Development Project

Restaurant

- Baba Ka Dhaba

Abstract:

The purpose of "Baba ka Dhaba" is to deliver food at the cheapest rates around the globe.

It is a Multi-National Restaurant which servers millions in a single day.

The food quality of this restaurant is top notch.

Our restaurant server the purpose of distributing hygienic food in the least time possible.

We offer online food ordering system which also promotes no contact system and that is ecofriendly too because no paper is waster for billing.

Our vision is to become the best ready made food supplier in the whole world and to provide as many jobs to people as possible.

It is our goal to provide the satisfaction of having food at time with best ever quality.

Objective:

The main objective of this project is to learn web development.

Which includes HTML, CSS and JavaScript.

Resources:

- YouTube

- Various Course Books
- Documentries
- Class PDF

Introduction:

1. Context-

This project has been done as part of my course for the CSE326 at Lovely Professional University . Supervised by Imran Hussain sir.

1. Motivation-

Being extremely interested in everything having a relation with the Web Development , , the group project was a great occasion to give us the time to learn and confirm our interest for this field. Web development gives an opportunity to solve various real world problems.

2. Idea-

As a first experience, we wanted to make my project as much didactic as possible by approaching every different steps of Web Development process and trying to understand them deeply.

When clicked on "Menu" on navigation bar, menu page comes as popup which contains various list of food items. When mouse is hovered on an item, it changes its color(as shown in the screenshot for item number 3).

3. Gallery:

The screenshot shows a gallery page with a white header and footer. The main content is a grid of six food images. Each image is enclosed in a rounded rectangular frame with a slight shadow, giving it a 3D effect. The images show various dishes: a burger, pancakes with syrup, spaghetti, a fruit salad, a steak, and a sandwich with blueberries.

The Gallery page also comes as popup just like menu page and it contains various images of restaurant's food which is tasty to eat. When mouse is hovered over any image, it gives an effect of "popping out" which is done by using CSS.

4. Healthy Tips:

Healthy Eating Tips :

Base your meals on higher fibre starchy carbohydrates

Starchy carbohydrates should make up just over a third of the food you eat. They include potatoes, bread, rice, pasta and cereals.
Try to include at least 1 starchy food with each main meal.
Keep an eye on the fats you add when you're cooking or serving these types of foods

Eat lots of fruit and veg

It's recommended that you eat at least 5 portions of a variety of fruit and veg every day.
A portion of fresh, canned or frozen fruit and vegetables is 80g.
A 150ml glass of fruit juice, vegetable juice or smoothie also counts as 1 portion, but limit the amount you have to no more than 1 glass a day as these drinks are sugary and can damage your teeth.

Eat more fish, including a portion of oily fish

The “Healthy Tips” page also comes as popup, when clicked. It has various tips regarding health and eating habits.

5. About Us:

About us

Baba Ka Dhaba

Hey there, Welcome to Baba Ka Dhaba. Baba Ka Dhaba Was incorporated from last 35 years ago. It is situated at LPU Campus in Punjab. It is a free Fast Food Website. Here you can order your favourite cooked food, deserts and non-vegetarian food also.

We are well equipped with all kinds of resources for successfully meeting the increasing demands of the products like

Our products are accessible with an assurance of high quality and standard. We take every care for the hygienic

We are a leading company in food and products in Bihar and Jharkhand. We would like to carry forward our business

This section contains the details of restaurant and about the details of founders of this restaurant.

6. Contact Us:

The screenshot shows a contact page for a restaurant. At the top, it says "Contact Us". Below that is a photo of the restaurant's exterior. Underneath the photo are icons for Instagram, Facebook, and Twitter. Two boxes below show the contacts for Priyanshu Tiwari and Satyam Raj, each with their names, a photo, and social media links.

Priyanshu Tiwari

Satyam Raj

Contains the contacts of restaurant and the founders.

7. Food Ordering Page:

The screenshot shows a food ordering page. At the top, there's a navigation bar with "babaKaDhaba.com" and links for Home, Menu, Gallery, Healthy Tips, About Us, and Contact Us. Below that is a section titled "Our specialities---". It features several food items in a grid: bread sandwiches, bread pizzas, bread pastas, bread pancakes, and bread stir-fries. On the right side, there are photos of a salad, a steak dish, and another salad. A prominent "ORDER NOW" button is overlaid on the steak photo. At the bottom left, there's a "Feedback +" button.

This is the most important page as it contains the contents to order food from the restaurant.

Using CSS and Js, we have given the user an option to select food and order as showing in the screenshot.

The selected item is highlighted with yellow shadow(item number 1,2,4,9) and when ever the user hovers his mouse on an item, it gives the item an effect of popping up(as shown in the screenshot (item number 6).

And on the right side of the page has the ordering button through which the user can order his food.

<h2 class="healthy-tips-center">Eat more fish, including a portion of oily fish</h2>
<div class="healthy-tips">
    Fish is a good source of protein and contains many vitamins and minerals. <br>
        Aim to eat at least 2 portions of fish a week, including at least 1 portion of oily fish. <br>
        Oily fish are high in omega-3 fats, which may help prevent heart disease. <br>
        Most people should be eating more fish, but there are recommended limits for some types of fish.

<h2 class="healthy-tips-center">Cut down on saturated fats and sugar</h2>
<div class="healthy-tips">
    You need some fats in your diet, but it's important to pay attention to the amount and type of fat you're eating. <br>
    On average, men should have no more than 30g of saturated fat a day. On average, women should have no more than 20g of saturated fat a day. <br>
    Children under the age of 11 should have less saturated fat than adults, but a low-fat diet is not suitable for children under 5. <br>
    For a healthier choice, use a small amount of vegetable or olive oil, or reduced-fat spread instead of butter, lard or ghee.

</div>
<h2 class="healthy-tips-center">Eat less salt</h2>
<div class="healthy-tips">
    Eating too much salt can raise your blood pressure. People with high blood pressure are more likely to develop heart disease or have a stroke. <br>
    Use food labels to help you cut down. More than 1.5g of salt per 100g means the food is high in salt.. <br>
    Adults and children aged 11 and over should eat no more than 6g of salt (about a teaspoonful) a day.
    Younger children should have even less.
